PROFESSIONAL SUMMARY

AI Engineer with 3 years of production experience building agentic AI systems, RAG pipelines, and evaluation frameworks for enterprise LLM applications. Built and evaluated agent and prompt orchestration flows using LangChain, LangGraph, and Claude, and deployed AI workloads to production with cost-optimized, zero-downtime CI/CD. Currently completing an MSc in Artificial Intelligence at the National College of Ireland. Looking to bring hands-on agentic AI, RAG, and evaluation experience to a fast-moving enterprise AI transformation.

CORE SKILLS

Agentic AI & Orchestration: LangChain, LangGraph, Claude, LlamaIndex, LangSmith, PromptLayer, RAG, agents, prompt engineering, tool integration

Programming: Python, JavaScript (React), REST APIs, Bash, YAML, Git

AI Evaluation & Quality: RAGAS-based evaluation harness, output validation, testing

Cloud & Delivery: AWS (EC2, S3, IAM), Azure, Docker, Kubernetes, CI/CD (Jenkins, GitHub Actions), cost-optimized scaling

Monitoring: Prometheus, Grafana, OpenTelemetry

PROFESSIONAL EXPERIENCE

Assistant Systems Engineer (AI Cloud) **2022 – 2025**

Tata Consultancy Services

- Built and evaluated agent and prompt orchestration flows using LangChain and PromptLayer, defining test scenarios and measuring AI output quality through a RAGAS-based evaluation harness.
- Designed FAISS-based RAG pipelines integrated with AWS S3, cutting query latency by 30% through retrieval tuning.
- Built LLM-powered enterprise assistants and developer-facing tools with LangChain and OpenAI, improving document search and knowledge-retrieval efficiency across enterprise systems.
- Automated model deployment through CI/CD (Jenkins, GitHub Actions), achieving cost-optimized, zero-downtime scaling for 10,000+ daily queries on AWS EC2 and Docker.

Customer Assistant (Part-Time) **2025 – Present**

Boots Ireland

- Handle customer queries and day-to-day operations directly, maintaining clear communication under a fast-paced, high-volume environment.

EDUCATION

MSc Artificial Intelligence — National College of Ireland, Dublin

2025 – 2026 (in progress)

Relevant modules: Intelligent Agents & Process Automation, Engineering & Evaluating AI Systems, Machine Learning, Deep Learning, AI-Driven Decision Making

MSc Software Systems — Sri Krishna Arts and Science College

2017 – 2022

CERTIFICATIONS

- Building Ambient Agents with LangGraph, 2025
- Microsoft Certified: Azure Virtual Desktop, 2023
- Microsoft Certified: Azure Fundamentals, 2022
